# SANLIDA ARCHERY STORY

Sanlida was founded in 1998 and is one of the largest manufacturers of archery equipment in the world, providing OEM services for multiple top brands in the United States and Europe. It is the only enterprise that offers a full range, full levels, and full set of archery equipment. Based on the company's well-established supply chain system and production capacity, Sanlida continuously reduces costs while ensuring product quality, providing users with products with the **ultimate cost-effectiveness**, and is committed to allowing everyone to enjoy the fun of archery.

Sanlida has a deep cooperation with the world's largest archery competition organization, the World Archery, and all of its competition equipment series products are certified by the World Archery. And title sponsoring the World Archery Ranking greatly enhances the brand's influence.

Sanlida is also the only brand in China that has maintained a 10+ year cooperative relationship with the world's most influential archery trade organization ATA, and continues to spare no effort in contributing to the development and growth of archery sports.

LET EVERYONE ENJOY ARCHERY SHOOTING

Sanlida's over 100 dealers are located in more than 50 countries across Asia, Europe, North America, South America, Oceania and Africa, providing convenient and high-quality products and services to millions of archers from all over the world.
